
Security & Prevention measures for reopening

Wild Canyon 2020 | V2.0

#BESAFE

We privilege health, sharing responsibility with all our visitors and collaborators.

Here is our action plan:

- Staff
- Visitors
- Park

STAFF

Temperature Check

Before starting a shift, we will monitor the temperatures of our staff. We will consider 37.5 as fever and exclude the staff member to send him for medical evaluation with the health authorities.

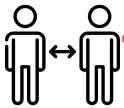

Use of face mask

The use of face masks will be mandatory all the time with all our staff in all common areas.

Washing and Sanitizing

All employees must wash their hands before and after each activity or in contact with one or more people. Also, they must use a sanitizing formula to disinfect their hands.

Social distance

We establish social distancing into practice, avoiding conglomeration of our collaborators in common areas..

VISITORS

→ **Temperature Check**

Before boarding the transportation, we will take the temperature of all our visitors, considering 37.5 °C as a fever for security. The access for the visitor will not be allowed and will be in touch for medical evaluation with the health authorities.

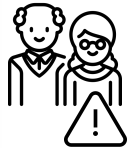

→ **Use of face mask every time**

All visitors are recommended to wear face masks at all times during their visit to the park.

→ **Washing and Sanitizing**

All visitors must wash their hands before and after each activity or in contact with one or more people. Also, they must use a sanitizing formula to disinfect their hands.

→ **People: Seniors and with medical conditions**

These people are at higher risk of being infected with COVID 19, for which we recommend assessing the risk. Some people can be infected without presenting symptoms and still infecting, so we can NOT guarantee non-exposure to the virus on your visit.

FACILITIES

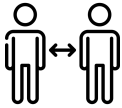

Laundry facilities & sanitizing solution

The laundry facilities are available to all our visitors as well as all areas have sanitizing solution for hand disinfection at all times.

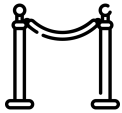

Constantly sanitization

We will continuously and thoroughly clean surfaces, equipment and furniture with sanitizing solution before and after each use..

Social distance

All common areas will have healthy distance marks with spaces of 1.5 Meters between each one. Replicating this same measure in our restaurant.

Limited Spots

In the first stage of reopening we will reduce the available spaces on each tour, as well as on the transporters by 50% to promote social distance.
